

# ALTINKAYA

Turkey

General View of Altinkaya Project

## DESCRIPTION

It was JPOWER who first identified this Altinkaya project. Thence JPOWER has continued to conduct feasibility study, detailed design and construction supervision of the project.

The major hydromechanical equipment was manufactured in Turkey and installed by Turkish contractors.

Technical transfer was made effectively by attaching Japanese advisors to the Turkish contractor.

## NAME OF CLIENT:

General Directorate of State Hydraulic Works (DSI)

## CAPACITY: 700MW

## SERVICES:

Feasibility Study (October 1974 - March 1975)

Detailed Design (October 1976 - November 1979)
