Panama

Bahia Las Minas Site

## DESCRIPTION

This project was planned by Instituto de Recursos Hidraulicos y Electrificación. It is to construct a coal-fired thermal power station(75MWx2units) in the Colon Province facing the Caribbean Sea to meet the growing demand for power of Panama City and the Panama Canal Zone, major load centers of Panama.

### NAME OF CLIENT:

Japan International Cooperation Agency(JICA)

Instituto de Recursos Hidraulicos y Electrificación  
(IRHE)

**CAPACITY:** 2x 75MW

### SERVICES:

Feasibility Study
