

# ULAANBAATAR

Mongolia

General View of Project

## DESCRIPTION

The Power station was manufactured and built under the design of the former USSR's manufacturer in 1983. It was required that the power station shall be rehabilitated to meet the increasing demand of energy and to prolong the life of it.

Under these circumstances, JBIC decided to finance a Yen Loan for the Mongolian Government and appointed J-POWER as an Owner's consultant to the rehabilitation project of coal fired power plant with the capacity of 540 MW.

## NAME OF CLIENT:

Ministry of Finance and Economy Mongolia  
Ministry of Infrastructure Mongolia  
Thermal Power Plant 4

## CAPACITY: 1,200MW

Unit No.1, No.5, No.6: 80MW  
Unit No.2, No.3, No.4: 100MW  
Total 540MW

## SERVICES:

Supervision Phase I(1) (June 1992 - March 1995)  
Supervision Phase I (2)(August 1992 - February 1998)  
Supervision Phase II(1) (October 1997- July 1999)  
Supervision Phase II(2) (June 2004 – June 2008)
