

OHMUTA

Japan

General View

DESCRIPTION

EPDC has been working with RDF for more than a decade, we began preparing to commercialize this area in response to growing demand for new energy sources that reduce dioxin emissions and protect the environment.

In January 1999, we joined with the Fukuoka Prefectural Government and the Ohmuta City Government to establish Ohmuta Recycle Power Co., Ltd. This joint venture, the nation's first RDF business, will go on line in 2002. RDF generation is an excellent
