Editorial Policy

Since fiscal 2017, the J-POWER Group has integrated its *CSR Report* into its *Annual Report*, which previously focused mainly on financial information.

From fiscal 2019, the report is being published as the *J-POWER Group Integrated Report* as a vehicle for communicating both financial and non-financial data in a structured and consistent manner. In preparing the integrated report, we referenced such guidelines as the Global Reporting Initiative's GRI Standards, the Ministry of Economy, Trade and Industry's Guidance for Collaborative Value Creation, and the International Integrated Reporting Council's International Integrated Reporting Framework. We sought to convey the Group's medium- to long-term growth story while furnishing structured, consistent disclosure of ESG-related topics, which have been of increasing interest to stakeholders in recent years. Going forward, we will continue working to enhance the report's content to foster deeper understanding of the Company among our shareholders, investors, and other stakeholders.
