Overview of the New Organization (Effective April 2002)

Outline of Organizational Review

(1) Introduction of the Business Department System

The business area will be divided into six Business Departments on the basis of the nature of the business operations they cover. The Business Departments will be led by “Executive Officers” with clearly defined executive powers and responsibilities.

(2) Restructuring of the Regional Organizations

The regional organizations had been under the direct control of Head Office have been restructured to come under the control of the Business Departments. The maintenance functions for hydropower, transmission and transformer facilities have been concentrated in four branch offices. Engineering staff will be stationed in the five regions that have no branch offices to ensure full support for these regions.
