**J-POWER has been included in the ESG Investment Indices  
"FTSE4Good Index Series" and "FTSE Blossom Japan Index"**

Electric Power Development Co., Ltd. (hereafter "J-POWER") announces that it has been included in the FTSE4Good Index Series and the FTSE Blossom Japan Index.

Created by the global index and data provider FTSE Russell, these ESG indices are composed of companies demonstrating strong Environmental, Social and Governance (ESG) practices. The FTSE4Good Index Series are composed of companies across the world and the FTSE Blossom Japan Index is made up of Japanese companies.

These ESG indices are widely used for sustainable investment and the creation and evaluation of various financial products. The Government Pension Investment Fund (GPIF), which manages Japanese public pension funds, also manages part of the funds based on the FTSE Blossom Japan Index.

FTSE Russell evaluations are based on performance in areas such as Corporate Governance, Health & Safety, Anti-Corruption and Climate Change. Companies included in these ESG indices highly meet a variety of environmental, social and governance criteria.

J-POWER Group aims to enhance the economic value of our operations and develop a sustainable society through the ESG activities.
