Electric Power Development Co., Ltd. (J-POWER)

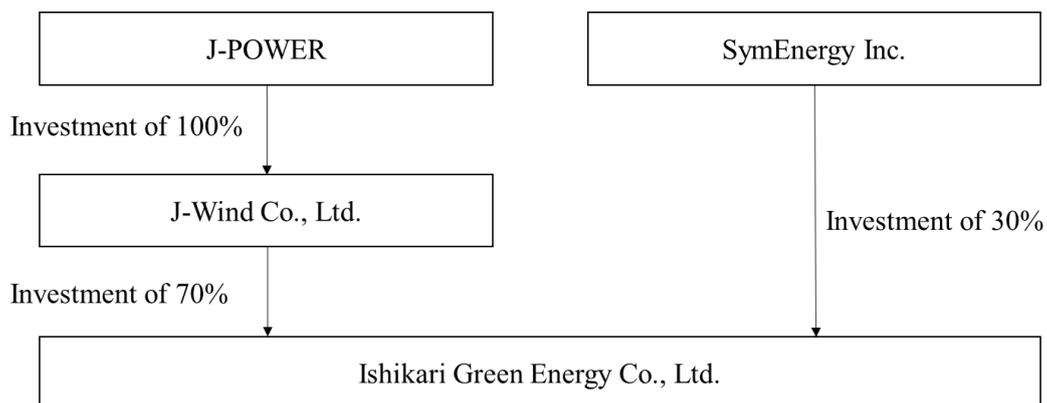

J-POWER carries out “Hachinosawa wind power project (tentative name)” in Ishikari City as a joint project

J-Wind Co., Ltd., a wholly owned subsidiary of J-POWER, established Ishikari Green Energy Co., Ltd. as a wholly owned subsidiary on June 7, 2021. After completing the necessary procedures based on the Electricity Business Act and other related laws and regulations, we will accept the investment of SymEnergy Inc., and this project will be carried out by J-POWER Group and SymEnergy Inc. This project will develop a new wind farm with its capacity 21,000kW.

1. Overview of the project
