Suspension of Operation of No. 1 Unit at Tachibanawan Thermal Power Plant

Electric Power Development Co., Ltd. (hereinafter, "J-POWER") hereby announces that operation of the No. 1 unit of the Tachibanawan Thermal Power Plant was suspended on February 15,2024, and outlook for operation.

## 1. Summary of this event

J-POWER suspend operation of No.1 unit of the Tachibanawan Thermal Power Plant February 15, 2024. It was because the steam leak from the High temperature reheat steam pipe was detected during operation.

Results of inspections, the crack was observed in one part of the High temperature reheat steam pipe. The cause of the crack is currently under investigation.

To resume operation, pipe with the crack is planned to be replaced. The power plant is expected to resume operation at the end of February 2025. Any change in the date of resumption of operations will be announced as soon as it is known.
