## 1. Operating Results and Financial Position (Consolidated)

### (1) Operating Results

Sales (operating revenue) increased by 4.7% from the previous fiscal year to 1,316.6 billion yen, mainly due to the increase in electricity sales volume because of the increase in electricity sales procured from wholesale electricity markets, etc., and increase in the load factor of thermal power plants from 55% to 58%, and the commencement of the capacity market by the power generation business, despite the lower electricity sales prices and decrease in electricity sales volume by the overseas business in Thailand, and the coal price decline by an Australian consolidated subsidiary that owns coal mining interests, etc. Non-operating income decreased by 19.3% from the previous fiscal year to 39.9 billion yen, mainly due to the decrease in profit in share of profit of entities accounted for using equity method. Total ordinary revenue increased by 3.8% from the previous fiscal year to 1,356.6 billion yen.

Operating expenses increased by 2.3% from the previous fiscal year to 1,178.3 billion yen, mainly due to the increase in power supply costs purchased from other suppliers in power generation business, etc., despite the decrease in fuel costs for the thermal power plants and overseas business, etc. Total ordinary expenses, including non-operating expenses, increased by 2.3% from the previous fiscal year to 1,216.5 billion yen.

As a result, ordinary profit increased by 18.2% from the previous fiscal year to 140.0 billion yen, mainly due to the improvement in gross profit in the power generation business, etc., despite the decrease in profit from an Australian consolidated subsidiary that owns coal mining interests due to a decline in coal sales prices, and the decrease in profit in share of profit of entities accounted for using equity method. Profit attributable to owners of parent after corporate income tax increased by 18.9% from the previous fiscal year to 92.4 billion yen.

Operating results by segment are as follows.

From the current consolidated accounting fiscal year, the company has changed its business segments reported as reportable segments. The comparison and analysis for the current consolidated accounting fiscal year are based on the revised classifications. The details regarding the change in reportable segments are provided in “3. Consolidated Financial Statements and Major Notes (5) Notes to Consolidated Financial Statements (Segment Information).”

#### (Power Generation Business)

In the Power Generation Business, electricity sales volume from renewable power plants showed 1.9% decrease from the previous fiscal year to 10.0TWh, mainly due to the decrease in water supply rate from 96% to 91%. Electricity sales volume from thermal power plants showed 7.4% increase from the previous fiscal year to 41.2TWh, mainly due to the increase in the load factor of thermal power plants from the previous fiscal year, etc. The sales volume of electricity procured from wholesale electricity market, etc. showed 41.6% increase from the same period of the previous fiscal year to 16.5TWh. Total electricity sales volume of the Power Generation Business increased by 12.4% from the previous fiscal year to 67.8TWh.

Sales (electric utility operating revenue and other business operating revenue) increased

by 10.5% from the same period of the previous fiscal year to 967.3 billion yen mainly due to the increase in electricity sales volume and the commencement of the capacity market.

Segment income increased by 236.4% from the same period of the previous fiscal year to 68.5 billion yen, mainly due to the improvement in gross profit and increase in sales, etc., despite the increase in power supply costs purchased from other suppliers, etc.

#### (Transmission and Transformation Business)

Sales (electric utility operating revenue) increased by 1.8% from the previous fiscal year to 50.4 billion yen mainly due to the increase in transmission revenue.

Segment income decreased by 61.2% from the previous fiscal year to 2.8 billion yen, mainly due to the increase in fixed asset disposal costs and subcontracting costs, etc., despite the increase in sales.

#### (Electric Power-Related Business)

Sales (other business operating revenue) decreased by 14.2% from the previous fiscal year to 102.6 billion yen mainly due to the coal price decline by an Australian consolidated subsidiary that owns coal mining interests.

Segment income decreased by 27.7% from the same period of the previous fiscal year to 34.0 billion yen, mainly due to the decrease in sales, etc.

#### (Overseas Business)

Electricity sales volume in the overseas business decreased by 9.7% from the same period of the previous fiscal year to 17.9TWh, due to the decrease in electricity sales volume in Thailand.

Sales (overseas business operating revenue) decreased by 5.6% from the same period of the previous fiscal year to 244.6 billion yen mainly due to the lower electricity sales prices and decrease in electricity sales volume in Thailand.

Segment income decreased by 22.1% from the previous fiscal year to 34.5 billion yen mainly due to the decrease in profit in share of profit of entities accounted for using equity method, etc.

#### (Other Business)

Sales (other business operating revenue) increased by 5.1% from the previous fiscal year to 18.1 billion yen.

Segment income increased by 287.1% from the previous fiscal year to 0.6 billion yen.

## **(2) Financial Position**

Total assets increased 192.9 billion yen from the end of the previous fiscal year to 3.6687 trillion yen. This is mainly due to the acceptance of assets from GENEX POWER LIMITED ("GENEX"), which became a subsidiary as of July 31, 2024, and depreciation of the yen and others.

Total liabilities increased 62.5 billion yen from the end of the previous fiscal year to 2.2052 trillion yen, mainly due to the acceptance of liabilities of GENEX and the depreciation of the yen, etc. Of this amount, interest-bearing debt increased 11.9 billion yen from the end of the

previous fiscal year to 1.8790 trillion yen, and it included 385.6 billion yen of non-recourse loans in overseas business.

Total net assets increased 130.3 billion yen to 1.4635 trillion yen, mainly due to the increase in foreign currency translation adjustment, etc., in addition to the increase of profit attributable to owners of parent.

As a result, shareholders' equity ratio increased from 35.0% at the end of the previous fiscal year to 36.4%.

### **(3) Cash Flow**

(Cash flows from operating activities)

Cash inflow from operating activities decreased 3.6 billion yen from the previous fiscal year to 250.3 billion yen mainly due to the increase in notes and accounts receivable, etc., despite the increase in profit before income taxes.

(Cash flows from investing activities)

Cash outflow from investing activities decreased 39.1 billion yen from the previous fiscal year to 122.8 billion yen mainly due to the decrease in expenditures from time deposit placements, etc., despite expenditures for the acquisition of Genex shares.

(Cash flows from financing activities)

Cash outflow from financing activities increased 67.8 billion yen from the previous fiscal year to 133.6 billion yen mainly due to the decrease in fundraising, etc., despite the decrease in expenditures for borrowings.

As a result of these activities, cash and cash equivalents as of March 31, 2025 increased 2.4 billion yen from the end of the previous fiscal year to 373.0 billion yen.

### **(4) Earning Forecast**

In the earnings forecasts for the fiscal year ending March 31, 2026, electricity sales volume in power generation business is estimated taking into account of water supply rate for same as normal year in hydroelectric power, resolution of facility trouble at some thermal power plants. Electricity sales volume in overseas business is estimated based on power generating plans in Thailand and the USA. As a result, operating revenue is expected to decrease 7.9% from the fiscal year ended March 31, 2025 to 1.2120 trillion yen.

Operating profit is expected to decrease 33.5% to 92.0 billion yen mainly due to the effect of the suspension and decommissioning Matsushima thermal power plant in power generation business, and the decrease in profit from coal sales at an Australian consolidated subsidiary, reflecting the decline in coal sales prices in electric power related business, etc.

Ordinary profit is expected to decrease 15.1% to 119.0 billion yen, despite the increase profits due to the gain on sales in share of profit of entities accounted for using equity method at the USA. Profit attributable to owners of parent is expected to decrease 3.8% to 89.0 billion yen.

## **(5) Notes to Consolidated Financial Statements**

### **(Notes on Premise of Going Concern)**

Not applicable.

### **(Changes in accounting policies)**

From the beginning of the current fiscal year, the company has applied the "Accounting Standard for Current Income Taxes" (ASBJ Statement No. 27, October 28, 2022), among others. Regarding the revisions related to the review of the treatment in the consolidated financial statements when deferring tax on gains and losses arising from the sale of subsidiary shares, etc., between consolidated companies, the company has applied the "Guidance on Accounting Standard for Tax Effect Accounting" (ASBJ Guidance No. 28, October 28, 2022) from the beginning of the current consolidated fiscal year. The change in this accounting policy has been applied retrospectively, and the consolidated financial statements and consolidated financial statements for the previous consolidated fiscal year have been restated accordingly.

The impact of these changes on the consolidated financial statements and consolidated financial statements is minor.

### **(Segment Information)**

#### **1. Overview of reporting segments**

The J-POWER Group's reportable segments are internal structural units for which separate financial information is available and are subject to regular review by the Board of Directors to determine the distribution of management resources and evaluate performance.

The J-POWER Group's business is separated into 5 reportable segments of "Power Generation Business", "Transmission and Transformation Business", "Electric Power-Related Business", "Overseas Business" and "Other Business".

#### **(Power Generation Business)**

Engages in the power generation business, utilizing power plants owned by J-POWER Group companies including hydro, thermal, and wind facilities, as well as the maintenance and operation of these facilities. Additionally, the Group sells electricity procured from the wholesale electricity markets.

#### **(Transmission and Transformation Business)**

Engages in the transmission business through a subsidiary owned power transmission and transformation facilities. This subsidiary provides transmission services to nine transmission and distribution companies, excluding The Okinawa Electric Power Company.

#### **(Electric Power-Related Business)**

Engages in complementing and contributing to the smooth and efficient execution of the Power Generation Business and Transmission and Transformation Business.

#### **(Overseas Business)**

Engages in overseas power generation business and related businesses.

(Other Business)

Engages in activities, including the sale of coal, that fully utilize J-POWER Group's management resources and expertise.

[Change in segment classification, etc.]

From the current consolidated fiscal year, the company decided to change the reportable segments in line with the J-POWER Group Medium-Term Management Plan for 2024-2026, which covers the three-year period from FY2024. The company has changed the reportable segments from conventional "Electric Power Business," "Electric Power-Related Business," "Overseas Business," and "Other Businesses" to "Power Generation Business," "Transmission and Transformation Business," "Electric Power-Related Business," "Overseas Business," and "Other Businesses." This is intended to encourage autonomous business operations within the new segments and increase business value by appropriately representing the business segments and actual business activities based on the characteristics of each of the businesses operated by the company.

The segment information for the previous consolidated fiscal year has been prepared based on the revised classification method and is presented in " 3. Information concerning amounts in sales, income or loss, assets and other items for each reportable segment " for the previous consolidated fiscal year.

## 2. Method of calculating amounts in sales, income or loss, assets and other items for each reportable segment

The method of accounting for reportable segments is the same as that applied to consolidated financial statements. The income of reportable segments is calculated on the basis of ordinary profit. Intersegment internal revenues are based on third-party transaction prices.

3. Information concerning amounts in sales, income or loss, assets and other items for each reportable segment

(Matters Related to Business Combinations, etc.)

(Business Combination through Acquisition)

J-POWER has been proceeding with the process of acquiring 100% of the issued shares of Genex Power LIMITED (hereinafter referred to as "Genex"), which operates renewable energy and battery storage development, construction, and operation businesses in Australia, through JPGA Partners Pty. Ltd. (investment ratio: 100%).

On the execution date of July 31, 2024, Genex became a subsidiary of our company J-POWER, following the approval at Genex's shareholders' meeting and by the Supreme Court of New South Wales, Australia.

(1) Overview of Business Combination

1. Name, business description and size of the acquired company

Name:

Genex Power Limited

Business description:

Development, construction, and operation of renewable energy and energy storage facilities

2. Reasons for the share acquisition

In line with J-POWER's corporate philosophy, which states, "We will meet people's needs for energy without fail, and play our part in the sustainable development of Japan and the rest of the world," J-POWER has strived for over 70 years to efficiently supply stable sources of electricity and has expanded business operations globally. Today, balancing a stable energy supply with a response to climate change is the most critical issue for the sustainability of human civilization. Given this situation, J-POWER formulated J-POWER BLUE MISSION 2050 in February 2021 and is accelerating initiatives to achieve a carbon-neutral and hydrogen-based world by 2050.

In Australia, the federal government submitted a target to the United Nations in June 2022 to reduce greenhouse gas emissions by 43% from 2005 levels by 2030 and to achieve net zero emissions for the entire country by 2050. Australia is expected to introduce approximately 40 GW of renewable energy and approximately 30 GW of energy storage facilities by 2035. Genex is developing a "clean energy hub" consisting of solar, pumped hydro, and wind power generation at the Kidston site in Queensland. J-POWER has built a deep relationship of trust with Genex since 2020 through the joint development of renewable energy projects. By accelerating the development of renewable energy and energy storage facilities together with Genex through the share acquisition, J-POWER is confident of significantly contributing to achieving the Australian government's greenhouse gas emission reduction targets and goals of J-POWER's BLUE MISSION 2050.

3. Schedule of Business Combination Date

July 31, 2024 (Deemed acquisition date: June 30, 2024)

4. Legal Form of Business Combination

Share acquisition with cash consideration

5. Name of the Combined Company

There is no change in the name of the combined company.

6. Percentage of Voting Rights Acquired
 

Percentage of Voting Rights Held Prior to Acquisition: 7.72%

Percentage of Voting Rights Acquired on the Business Combination Date: 92.28%

---

Percentage of Voting Rights After Acquisition: 100.00%
7. Main Basis for Determining the Acquiring Company
 

This is because JPGA Partners Pty. Ltd., a wholly owned subsidiary of J-POWER, acquired the shares of Genex in exchange for cash consideration.
- (2) Period of the Acquired Company's Performance Included in the Consolidated Financial Statements
 

From July 1, 2024, to December 31, 2024
- (3) Acquisition Cost of the Acquired Company and Breakdown by Type of Consideration
 

Consideration for Acquisition:

Fair value of shares held immediately prior to the business combination as of the business combination date: 3,148 million yen.

Cash: 37,610 million yen.

---

Acquisition Cost: 40,758 million yen.

(Note) Calculations are based on the exchange rate as of the deemed acquisition date.
- (4) Breakdown and Amount of Major Acquisition-Related Costs:
 

Advisory fees and stamp duties: 2,542 million yen
- (5) Difference Between the Acquisition Cost of the Acquired Company and the Total Acquisition Cost of Each Transaction Leading to the Acquisition
 

432 million yen
- (6) Amount, Cause, Amortization Method, and Amortization Period of Goodwill Recognized
  1. Amount of Goodwill Recognized
 

12,388 million yen

The above amount is calculated using the exchange rate as of the deemed acquisition date.

In addition, as of the end of the consolidated fiscal year, the identification of identifiable assets and liabilities as of the acquisition date, as well as the estimation of their fair value, has not yet been completed. Therefore, provisional accounting treatment has been applied based on reasonable information and other relevant data available as of the fiscal year-end.
  2. Cause of Goodwill Recognized
 

This arises from the future excess earning potential expected from the Company's future business development.
  3. Amortization Method, and Amortization Period of Goodwill Recognized
 

Amortized on a straight-line basis over 20 years.
- (7) Amounts and Main Breakdown of Assets Acquired and Liabilities Assumed as of the Business Combination Date
 

Fixed Assets: 102,060 million yen

Current Assets: 11,044 million yen

---

Total Assets: 113,104 million yen

---

Non-Current Liabilities: 88,707 million yen

Current Liabilities: 4,946 million yen

---

Total Liabilities: 93,654 million yen

(Note) Calculations are based on the exchange rate as of the deemed acquisition date.

## (Additional information)

(Conclusion of an Equity Interest Transfer Agreement Involving a Change in an Affiliate Accounted for the Equity Method, Green Country Energy, LLC)

On June 28, 2024, Electric Power Development Co., Ltd. (J-POWER) decided to transfer its entire equity interest in Green Country Energy, LLC, a company in which J-POWER has a 50% equity interest through its wholly owned subsidiary, J-POWER North America Holdings Co., Ltd., to Public Service Company of Oklahoma. In response to this, Green Country Holding LLC, the direct parent company of Green Country Energy, LLC and in which J-POWER holds a 50% equity interest, entered into an equity interest transfer agreement on the same day.

Going forward, J-POWER will proceed with various procedures in the U.S., including obtaining the necessary permits and approvals, in preparation for the transfer. However, changes to the transfer or the possibility that the transfer may not be executed could occur due to approvals from the federal and state governments in the United States or other contractual conditions.

If this transfer is executed, Green Country Energy, LLC will be removed from the list of equity-method affiliates of J-POWER.

### (1) Reason for the Transfer

To effectively utilize management resources and improve asset efficiency.

### (2) Name of the Company to Which the Transfer is Made
